

Two-day activities in Paris, welcomed by the counterparts of Energy Regulatory Commission of France

On January 31 and February 2 2023, ERE Chairman accompanied with ERE Board Members and the Secretary General, were invited from – the Regulatory Commission for Energy of France, in a bilateral meeting to recognize CRE mission. The visit of ERE delegation is in continuation of the meeting held by the French Regulator in Tirana on 2021 in the framework of the project financed by the French Agency for Development, part of power sector reform.

During this activity the participants met Mrs. Wargon CRE President and the Commissioner Ivan Faucheux, with whom they discussed above all about the power sector of both countries, the organization of the Regulators, the role of ERE and CRE in international organizations such as MEDREG, ECRB, ERRA, CEER etc.

At the meeting was discussed about the crisis on power sector in Europe and how it has affected in the European power system and our region, as well as the challenges in the future of the Regulators in the framework of energy transition.

During this activity was held a meeting with the Transmission System Operator of France RTE and a visit to the National Dispatch Center for electricity as well as RTE role on ENTSO-e and the cooperation with the TSO in Regional working groups.

At the end of the meetings, it was agreed to follow the cooperation between the two regulators in common interest areas for both parties as well as to continue the visit exchange of the Regulator's staff.
