### LICENSES

### NEWS

During August, the Energy Regulatory Entity initiated the licensing procedures for the entities as follows:

1. "SELCA ENERGJI" company for license modification for the production of electricity.
2. "Joint Venture 2B 1979 and 2T company" for licensing the company in electricity production activity from the photovoltaic plant with installed capacity 2 MW, procedure that is finalized with ERE Board Decision no. 268 dated 11.09.2023.
3. "KESH" company for renewing the license of the company, in electricity supply activity.
4. "AYEN ENERGY TRADING" company for license renewal, in electricity supply and trading activity

### **Energy Community publishes NECP status: Albania leads the member states.**

The progress of Albania in the project of National Energy and Climate Plans (NECP) of Energy Community Secretariat shows its commitment to sustainable energy. Albania achieved significant milestones that illustrate its engagement, prioritizing renewable resources, reducing emissions and encouraging regional commitment for a greener future. National Energy and Climate Plans (NECPs) serve as a roadmap to achieve the reduction of greenhouse gas, the increase of the investments in wind, solar and hydro-energy projects, the reduction of the costs and increase of security and sustainability in the power sector
