

REPUBLIKA E SHQIPËRISË

Press Release

Dated 27.10.2022

For all the household customers supplied by the Universal Service (FSHU company).

ERE has the obligation to reflect the energy prices for the end-use customers of Universal Service, the costs of supply according to the costs of the energy supply source.

ERE Board decision no. 242, dated 23.09.2022, as amended with Board decision no.254, dated 07.10.2022, remains into force for November-December 2022 and these prices remain applicable as determined in the decision, for November 1, 2022 - December 31, 2022 period.

As previously emphasized by ERE decision-making, the price of electricity supply for customers who consume above the 800 kWh consumption band shall remain subject to periodic review, based on the request of FSHU company, the decisions of the Assembly of KESH company, as well as ERE assessments, through which changes in the sale price of electricity for the end-use customers of universal service shall be assessed.
