ENERGY REGULATORY AUTHORITY

DECISION

No. 56, of date 20.02.2026

ON

DEFINING THE ELECTRICITY SALE PRICE FROM THE SUPPLIER OF LAST RESORT FOR THE CUSTOMERS CONNECTED IN 20/10/6 KV VOLTAGE LEVEL

Based on Articles 16 and 87, point 4 of Law no. 43/2015 “*On Power Sector*” as amended; the “*Methodology on defining the electricity sale price from the Supplier of Last Resort*”, approved with ERE Board Decision no. 201, of date 04.12.2017, as amended as well as Article 15 of the *Regulation for ERE organization, operation and procedures*, approved with ERE Board Decision no. 96, of date 17.06.2016; ERE Board, on their meeting of date 20.02.2026, after reviewing the report protocol no. 678/1, of date 18.02.2026, prepared by Tariffs and Prices Directory “*On defining the electricity sale price from the Supplier of Last Resort for the customers connected in 20/16/6 kV voltage level*”, and *water supply and sewerage companies connected in 6/10/20/35 kV voltage level for 2026 period*”

Observed that:

- According to Article 20 of Law no. 43/2015 “*On Power Sector*”, as amended, ERE has the power to approve the regulated tariffs and prices for the licensee that exercise their activities in power sector, in conformity with the approved methodologies.
- KESH company on date 18.02.2026 send at ERE “the Decision of the Shareholder General Assembly Protocol no. 1212/1, of date 06.02.2026 for 2026 period”, which defined the average electricity sale price for the contracted quantity for the customers connected in 20/10/6 kV voltage level of about (12.00 ALL / kWh), for 2026 period.
 - FSHU company with the official letter protocol no. 678/3, of date 19.02.2026, submitted the application for the approval of the electricity sale price for 2026 period for the customers that are supplied from the Supplier of Last Resort connected in 6/10/20 kV voltage level as well as for Water Supply and Sewerage companies connected in 6/10/20/35 kV voltage level, attached to this decision is the “Decision of the Shareholder General Assembly of KESH company, Protocol no.1212/1, of date 06.02.2026”.
 - In the submitted application, FSHU company qualifies customers connected at the 20/10/6 kV voltage level as customers of special importance where the cost of purchasing electricity will be 12.00 ALL/kWh.
 - In “the Decision of the Shareholder General Assembly” with Protocol no. 1212/1, of date 06.02.2026, it is evidenced that the electricity purchase cost for the purpose of supply of last resort shall be applicable for all customers connected at the 20/10/6 kV voltage level who will be served under the conditions of the last resort shall be 12 ALL/kWh for the entire 2026 period.

The components used for calculating the electricity sales price are as follows:

- **Weightened average purchase price of electricity purchase (ÇBEt)** for the customers connected in 20/10/6 kV voltage level for 2026 period continues to be 12.00 ALL/kWh, based on the decision of Shareholder Genera Assembly protocol no.1212/1, of date 06.02.2026 of KESH company.
 - **Electricity transmission service tariff** for 1 January 2025 - 31 December 2027 period that is approved with ERE Board decision no. 279, of date 16.12.2024, “On approving the electricity transmission tariff for 1 January 2025 - 31 December 2027 period” is 0.85 ALL /kWh.
 - **Distribution service tariff in 20/10/6 kV voltage level**, according to ERE Board decision no. 288, of date 23.12.2024, “On letting into force ERE Board decision no.73, of date 13.04.2022”, is 3.99 ALL.
 - **The administrative costs, that shall continue to be** 1.06 ALL/kWh.
 - **Risk of return of about 3%** (that is applied over the weightened price of energy purchase to cover the request for electricity) on the amount 0.36 ALL/kWh for the customer category that is connected in 20/10/6 kV voltage level.
- Implementing the ‘*Methodology for defining the electricity sale price from the Supplier of Last Resort*’ and the data available in the calculations performed by ERE it results that the electricity sale price from the Supplier of Last Resort for 2026 period, for the customers of specific importance that are connected in 20/10/6 kV voltage level is submitted on the table as follows:

The electricity price supplied by the Supplier of Last Resort for the customers connected in 20/10/6 kV voltage level for 2026 period		
	Unit	Price
CBEt Average weightened price of electricity purchase	ALL/kWh	12.00
Pr Risk of Return defined in in percentage per year (3%)	ALL/kWh	0.36
CA Administrative cost of the Supplier of Last Resort	ALL/kWh	1.06
TRr Tariff of using the transmission network	ALL/kWh	0.85
TSHt Tariff of using the distribution network	ALL/kWh	3.99
Electricity Price = CBEt + Pr * CBEt + TRr + TSHt + CA	ALL/kWh	18.26

For all of the above mentioned, ERE Board,

Decided:

1. Defining the electricity sale price supplied from the Supplier of Last Resort for 2026 period, of about 18.26 ALL/kWh for specific customers connected in 20/10/6 kV voltage level.

2. The change of each component element in the calculation of electricity sale price supplied from the Supplier of Last Resort for the customer connected in 20/10/6 kV voltage level, shall constitute a reason to review this ERE Board decision.
3. Tariffs and Prices Directory, shall inform FSHU company regarding ERE Board decision.

This decision enters immediately into force.

Each party involved in this procedure may request from ERE, within 7 calendar days from the date of receiving this decision, the review of the Board's decision if there are provided new evidences that may lead the Board to take a decision different from the previous one or for identified material errors. For this decision, may be filled an appeal on Tirana Administrative Court within 30 calendar days from the date of publication in the Official Gazette.

This decision is published in the Official Gazette.

ERE CHAIRMAN

Petrit AHMETI
