Based on Articles 16 and 87, point 4 of Law no. 43/2015 “*On Power Sector*” as amended; the *Methodology on defining the electricity sale price from the supplier of last resort*, approved with ERE Board Decision no. 201, of date 04.12.2017, as amended with Decision no. 144, of date 25.06.2018 and Decision no. 233, of date 20.12.2019; as well as Article 15 of the *Regulation for ERE organization, operation and procedures*, approved with ERE Board Decision no. 96, of date 17.06.2016; ERE Board, on their meeting of date 10.03.2026, after reviewing the report Protocol no. 793/1, of date 06.03.2026, prepared by Tariffs and Prices Directory “*On defining the electricity sale price from the supplier of last resort for February 2026 period for the customers connected in 35 kV voltage level*”,

Observed that:

I – Legal and Procedural aspects

1. Submission of the request from FSHU company

- FSHU company with the official letter Protocol no 1257, of date 02.03.2026, ERE Protocol no. 793, of date 03.03.2026, submitted the request on approving the electricity sale price for February 2026 period, for the customers connected in 35 kV voltage level, that are supplied from the Supplier of Last Resort.

2. Process of reviewing the documentation by ERE

The request has been reviewed in accordance with Article 15 of the “Regulation on ERE Organization, Operation and Procedures”, approved with Decision no. 96, of date 17.06.2016, as well as in support of Articles 16 and 87, point 4, of Law no. 43/2015, “On Power Sector”, as amended, as well as the “Methodology for defining electricity sale price from the Supplier of Last Resort” approved with ERE Board Decision no. 201, of date 04.12.2017, as amended.

II – Analysis for the calculation of electricity sale price from the Supplier of Last Resort for February 2026 period, for the customers connected in 35 kV voltage level

1. Electricity purchase on the exchange

For February 2026 period, FSHU company has ensured the electricity amount to cover the request for energy of this customer’s category through daily/monthly purchased at the Albanian Power Exchange (ALPEX).

2. Calculation of Weighted Average Purchase Price (ÇBEt)

Referring to the submitted data, it results that the weighted average electricity purchase price (ÇBEt) that is calculated from the company for February 2026 period is **5.92 ALL /kWh**. For checking the submitted data, it was considered reasonable their recalculation, from which resulted that the weighted average electricity purchase price is **5.92 ALL /kWh**, as reflected even on the calculations submitted from the company itself.

3. Components according to the Methodology (Article 8, decision no. 201, of date 04.12.2017, as amended) . According to the respective methodology, the components used for the calculation of electricity sale price are as follows:

- **Weighted average purchase price of electricity purchase (ÇBEt)** for February 2026 period: **5.92 ALL/kWh**;
 - **Transmission service tariff** of electricity purchase for 1 January 2025 – 31 December 2027, approved with ERE Board Decision no. 279, of date 16.12.2024: **0.85 ALL/kWh**;
 - **Distribution service tariff** on 35 kV voltage level, according to ERE Board Decision no. 288, of date 23.12.2024, “On letting into force ERE Board Decision no. 73, of date 13.04.2022”: **1.55 ALL / kWh**;
 - **Administrative cost**: **1.06 ALL /kWh**;
 - **Official exchange rate published by the Bank of Albania (ALL/Eur)**, for each respective date of the 30.01.2026 – 27.02.2026 period.
- Implementing the “Methodology for defining the electricity sale price from the Supplier of Last Resort”, referring to FSHU company application as well as being supported on ERE calculations, the electricity sale price for the customers supplied from the Supplier of Last Resort for February 2026 period, is calculated as follows:

<i>The electricity price supplied by the Supplier of Last Resort for the customers connected in 35 kV voltage level for February 2026 period</i>		
	Unit	Price
CBEt Average weighted price of electricity purchase	ALL/kWh	5.92
Pr Risk of Return defined in in percentage per year (3%)	ALL/kWh	0.18
CA Administrative cost of the Supplier of Last Resort	ALL/kWh	1.06
TRr Tariff of using the transmission network	ALL/kWh	0.85
TSHt Tariff of using the distribution network		1.55
Electricity Price = CBEt + Pr * CBEt + TRr + TSHt + CA	ALL/kWh	13.04

- Based on each element of the calculated formula as well as considering the data submitted on the company’s application, it results that:

- The electricity sale price for the customers connected in 35 kV voltage level, supplied from the Supplier of Last Resort results *9.56 ALL / kWh for February 2026 period.*

For all of the above, ERE Board,

Decided:

1. Defining the electricity sale price supplied from the Supplier of Last Resort for February 2026 period of about 9.56 ALL/kWh for the customer connected in 35 kV voltage level.
2. The change of each element component element in the calculation of electricity sale price supplied from the Supplier of Last Resort for the customer category that is specified on this decision, shall constitute a reason for the review of ERE Board Decision.
3. Tariffs and Prices Directory, shall inform the applicant regarding ERE Board Decision.

This decision enters immediately into force.

Each party involved in this procedure may request the review of the ERE Board's decision within 7 calendar days from the date of receipt of this decision, in the presence of new evidence that may lead the Board to issue a different decision or in cases of identified material errors. An appeal against this decision may be filed with the Administrative Court of Tirana within 30 calendar days from the date of its publication in the Official Gazette.
